

Henley Bridge Decorative Lighting Request Form

Priority in choosing colors for the Henley Bridge deck's decorative lights will be given to promoting events that celebrate the City, its civic institutions, City-recognized holidays, public events and festivals. Requests to change the color or pattern of the bridge's decorative lights will be accommodated as dates are available. The City retains the right to refuse requests. If multiple requests are made for different colors on the same dates, preference will be given to events that are locally organized and that affect the largest number of Knoxville residents.
